

Amendments to the Claims

The following listing of the claims will replace all prior versions, and listings of the claims in the application:

Listing of Claims

1-32 Canceled

33. (New) A recording method for recording data on a recording medium, said recording medium having a unique ID recorded thereon, the recording method comprising:

reading the unique ID from the recording medium;
encrypting the data using the unique ID to generate an encrypted data; and
recording the encrypted data on the recording medium.

34. (New) A recording method as claimed in claim 33, wherein said data is an image data generated by a diagnostic instrument.

35. (New) A recording method as claimed in claim 33, wherein said data is an electronic clinical chart.

36. (New) A reproducing method for reproducing data from encrypted data stored in a recording medium, said recording medium having a unique ID recorded thereon, the reproducing method comprising:

reading the unique ID from the recording medium;
decrypting the encrypted data using the unique ID to generate a decrypted data; and
producing the decrypted data.

37. (New) A reproducing method as claimed in claim 36, wherein said data is an image data generated by a diagnostic instrument.

Application No. 09/811,675
Reply to Office Action of May 19, 2005

38. (New) A reproducing method as claimed in claim 36, wherein said data is an electronic clinical chart.
